H&E SMITH

# About H&E Smith

Specialist Tile Manufacturers and  
Distributors Since 1926

PAVIGRÉS<sup>®</sup>  
GRUPO

At H&E Smith we manufacture and distribute **Period Embossed Tiles** and **Eco-Glazed Brick Slips**, all made on site at our factory in Stoke-On-Trent. Our most popular selling lines are often used to create feature walls in bars, restaurants and retail outlets.

Our experience with the bespoke manufacture of ceramics has greatly enhanced our ability to be able to work closely and effectively with architects, designers and specifiers.

This has culminated in our large collection of clients that we now supply throughout the world, both in the fashion, retail, housing and hospitality sectors.

To compliment the ranges we manufacture, we also supply a wide range of porcelain floor and wall tiles produced by Pavigrés in Portugal. We have a great relationship with Pavigrés and as an official supplier of their tiles, we offer a slick sampling service to allow you to see and feel the tiles before ordering.

This brochure contains links to some of the ranges we can supply, however, feel free to explore the full range on the Pavigrés website and if you see something not featured in this brochure, please complete this **enquiry form** or drop an email to **[sales@hesmith.co.uk](mailto:sales@hesmith.co.uk)**

Please note orders from the Pavigrés ranges may have a minimum order quantity of 15m<sup>2</sup>

# Metallik

Metallik is a superb porcelain stoneware, it's the most accurate ceramic interpretation of an iron plate stripped to elements. With its unparalleled characteristics of oxidized effect blended with the original metallic luster, Metallik is presented in it's original plate form, and, in a faithful recreation of the old industrial floors, as used in large metal structures.

Each design is available in a range of size options:

890mm x 890mm x 10.5mm

597mm x 597mm x 10.5mm

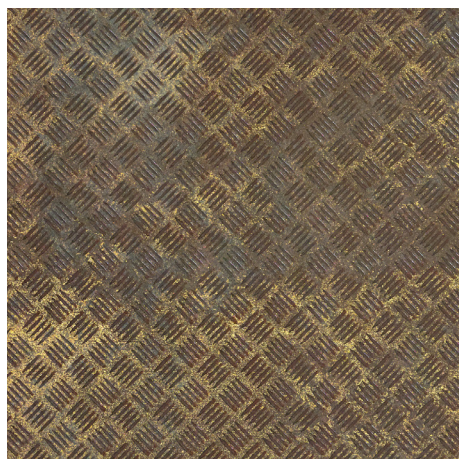

890mm x 297mm x 10.5mm

# Concrete

In 1824, Joseph Aspdin created the ultimate bonding material called Portland Cement used in the production of concrete, since then, the evolution has sky-rocketed.

The Concrete Collection reflects the true spirit of the Portland Cement, with excellent technical performance. It's a double-load porcelain stoneware, with it's high technical quality and durability, specially designed for high traffic areas.
